**Deadline:** 27th January

**Funding Source:** IFS

**This scholarship is recurrent; please make sure you visit their**

**website for updated information. Note that some scholarships are launched annually for a predete**

*Parce que cette bourse est annuelle ; il est hautement recommandé de visiter leur site pour les dernière*

### **Periodicity**

Annual

### **Description**

Providing early-career support to promising young developing country researchers has been the mandate of the International Foundation for Science (IFS) for many years. Building on this experience, the new IFS Strategy 2011-2020, launched in 2011, emphasizes three approaches:

- Individual Research (this call)
- Collaborative Research
- Contributing Innovation

In the Individual Research Approach, IFS continues its commitment to support excellent individual research and to build capability of early-career scientists in the developing world

to undertake research on the sustainable management of biological and water resources. Applicants are encouraged to tackle research issues linked to these areas, and to develop solutions that are relevant to local contexts. By encouraging local researchers to work in their home countries, generating cutting-edge and locally relevant knowledge, we hope to contribute to strengthening their countries' research capability and ultimately contributing to a global research community aimed at reducing poverty and supporting sustainable development.

### Eligible African Countries

Any African country

### Field of Research

Proposals are sought under one of three research areas:

- **Sustainable Natural Resources Management**  
Including but not limited to: Biodiversity, Forestry, Natural Products, Renewable Energy and Climate Change.
- **Water and Aquatic Resources**  
Including but not limited to: Water Resources Research; Research on all aspects of freshwater, brackish and marine aquatic organisms and their environments.
- **Food Production, Food Security and Nutrition**  
Including but not limited to: Research on Food Production; Animal Production and Veterinary Medicine; Crop Science including Underutilised Crops; Food Science and Nutrition, and Food Security issues.

### Eligibility

#### Country eligibility

## IFS Individual Research Grants

Tuesday, 01 January 2013 23:04 - Last Updated Friday, 06 September 2013 06:23

---

To be eligible for support from IFS Individual Research, applicants must be citizens of a developing country that is eligible for IFS support, and carry out the research in an eligible country (this does not have to be the country of citizenship).

> [Eligible Countries list](#)

### Personal eligibility

Within Approach 1 individual research grants will be awarded to individual early-career scientists in developing countries in support of excellent science.

Applicants should be at the beginning of their research careers and have a minimum academic degree of an MSc/MA or the equivalent. To be of eligible age, men should be younger than 35 years and women should be younger than 40 years on 27th January 2013 (closing date for this call). If the applicant's 35th (men)/40th (women) birthday is on the closing date of the call, he/she is still eligible.

Researchers, who are already IFS grantees, are eligible to apply for renewal grant irrespective of age.

### Institutional Affiliation

Applicants must be attached to a national research institute (e.g. university, non-profit making research centre, or research-oriented NGO) in a developing country. The institution is expected to: administer the grant, guarantee that the applicant has a salary (or other source of income), and provide basic research facilities. Researchers employed at international research institutes are NOT eligible. However, researchers doing part of their project at an international institute can apply for an IFS grant, if their principal affiliation is with a national Institution.

### Application Procedure/deadline

Read the guidelines:

> [English Guidelines](#)

> [French Guidelines](#)

The deadline for submission of research grant applications is 27th January 2013 (24.00 hrs GMT)
